Work Experience

June 2014-July 2014 | Portglenone Enterprise Group | Designer

I carried out work experience with Portglenone Enterprise Group by creating a range of posters to be used by the company as advertisements. This allowed me to expand and develop my skills in Adobe Photoshop and Illustrator. I was taught how to target my audience through art direction. I gained experience in gaining feedback, working to a brief and adapting new ideas and queries through working with clients. By working in a professional field I gained experience with teamwork, working towards deadlines and working independently.

April 2011-September 2011 | Save the Children | Volunteer

Through volunteering in Save the Children UK's charity shop, I learnt a vast amount of people skills. This position also allowed me to gain access to teamwork and management skills, along with organisation and time keeping.

Interests and achievements

Duke of Edinburgh Award

I have completed my Bronze and Silver award, with my Gold award still pending. Through this award scheme, I was taught a range of valuable skills; Team work and time keeping skills, people skills, being able to adapt to new conditions and take initiative, coping with difficult and stressful situations and planning ahead.

Art and Design

I am a very passionate painter. I love exploring my creativity and experimenting with new mediums. This love for art has transferred into graphic and web design.

Charity Work

In addition to volunteering at Save the Children, I was greatly challenged when on a trip to Romania in Summer 2013 to bring aid to orphanages and mentally challenged homes. This trip challenged me mentally, pushing me to use my initiative. It pushed me to work as part of a team and keep organised to a strict schedule. It also allowed me to become more independent, having to deal with situations that were difficult to me, forcing me to overcome the obstacles that were presented.
